Section 2 Disclosure Information

1. The Company's history, policy, objectives and strategies, business overview, product description and key services, how to contact the Company, procedures and time-frame of filing for policy benefit

1.1 The Company's General Information

Prudential Life Assurance (Thailand) Public Company Limited (“the Company”) is a subsidiary of Prudential plc, founded in England, with a history of operating life insurance business worldwide for over 175 years and more than 100 years in Asia. Today, Prudential plc is a leading international financial services group, which provides life and health insurance and asset management in Asia and Africa.

Prudential began operations in Thailand in 1995 as one of the leading providers of life and health insurance services. Prudential provides protection solutions to Thai people through multi-distribution channels - bancassurance, agency, telemarketing, digital and alternative channels including group insurance. At present, the Company is located at 944 Mitrtown Office Tower, 10th, 29th-31st Floor, Rama 4 Road, Wangmai, Pathumwan, Bangkok 10330.

For more information about the Company's General Information, please visit our website

1.2 Strategic Direction

Purpose of the Company is to “For every life, for every future”.

Mission of the Company is to “Partners for every life, Protector for every future”.

PLT's strategic direction for FY2024-2026 is based on the 4 strategic pillars:

1. Enhancing Customer Experiences

To be the most trusted partner to customers, it is important to deliver top-quartile net promoter score consistently in the market to supports greater retention and acquisition of customers. The company focuses on leveraging data and technology to develop tailored offerings that meet the needs of customers at different life stages whilst enhancing overall competitiveness. The aim is to provide positive customer experience through a flexible technology platform and convenient contact at all times.

2. Best in Class Holistic ILP Proposition

The aim is to be successful in identifying Affluent customers wealth needs by providing top agents with a holistic suite of tools and customising investment solutions at a much faster speed-to-market than is possible using a third party. More importantly, the focus will be on creating more value by improving the consistency of investment performance of PLT's in-house asset manager, Eastspring, by measuring investment performance relative to market benchmarks.

3. Technology-Powered Distribution

Powering the distribution forces with upgraded technology, focusing on agency and bancassurance productivity and activation. The key to driving repeatable success at scale and doubling value creation is to shift from “quantity led” to “quality led” growth.

4. Transforming Health and Business Model

With the scale of the health market opportunity, and an ambition to enhance customer experiences, we believe there is value in extending our role beyond reimbursement. We want to be a trusted partner to our customers, playing a much-needed coordinating role across their healthcare journeys.

To ensure the strong foundation for the four strategic pillars, it is crucial to have the three cornerstones in place - **People and Culture** : engaged workforce, thriving work environment, and talent development ; **Scalable Technology Platform**: open-architecture that seamlessly integrate with partners ecosystem with generative AI and data analytics; and **Contribution to Society** : sustainable, responsible and inclusive projects with community and Net Zero commitment by 2050.

2. Company's corporate governance and internal controls including details on the implementation framework and processes

2.1 Company's Corporate Governance and Internal Controls

Corporate Governance

The Company has developed a Corporate Governance Framework with policies, standards and guidelines to support its directors, executives, employees and other stakeholders to carry out their roles and responsibilities in attaining long-term operational performance, with credibility and sustainability.

This framework is endorsed by the Board of Directors to assist them in ensuring that the principles of good corporate governance are practiced and an appropriate corporate governance structure, with efficient process and mechanism to control, supervise, audit and continually monitor operations of the company, is in place.

The Company sets high priority for good corporate governance and believes that this is in the heart of running its business. Together with the mission of the Prudential Group to be partners for every life and protectors for every future, by providing simple and accessible financial and health solutions, the Prudential Group has drawn up the Code of Business Conduct that sets the values and standards required across its business operations, in its "Group Governance Manual", which is fully adopted by the Company. The Code forms the basis of the Company's integrity in its responsibility toward its customers, shareholders, business partners, competitors, regulators and all its employees. The management and employees of the Company follow the framework of this Code.

For more information about the Code of Business Conduct, please visit our website.

<https://www.prudential.co.th/corp/prudential-th/en/about-prudential-thailand/corporate-governance/>

Internal Controls

The Company establishes standard operating procedures with clear goals and objectives, setting out roles and responsibilities with pre-defined authority limits where necessary, to ensure effective operations of the business. These are reviewed, monitored and assessed regularly to maintain sufficiency of the internal controls. Group-wide Internal Audit provides the independent assessment at least annually to the Audit Committee and Board of Directors.

For more information about the Internal Controls, please visit our website.

6. Mr. Itt Apiraktivong	Chief Corporate Development Officer

For more information about Sub-Committees, please visit our website.

<https://www.prudential.co.th/corp/prudential-th/en/about-prudential-thailand/corporate-governance/>

2.5 Director's and Executive's selection and appointment

Director's Selection and appointment

The Company recruits and selects capable candidates based on qualifications by law and regulations, skills, experience, and functional expertise, to replace Directors, who have completed their term, resigned or have been discharged and propose for the approval of Prudential Corporation Asia Officers, the Board of Directors and/or in a shareholders' meeting as stipulated in the Company's regulation.

Executive's Selection and appointment

As for the principles for the hiring of "Senior Management" members for the Company, "Senior Hiring" is defined as the search and recruitment activities for the CEO and CEO's direct reports. The evaluation and assessment process must be finalized by 2 managers such as the CEO and the Regional Officer. The leadership assessment and/or any additional assessment instrument will be designed by Regional Human Resources and the formal Employment Screening is the responsibility of the Company.

For more information about Director's and Executive's selection and appointment, please visit our website.

<https://www.prudential.co.th/corp/prudential-th/en/about-prudential-thailand/corporate-governance/>

2.6 Remuneration policy

Director's Remuneration

The Company has established a set of well-defined procedures for setting the directors' remuneration. Each year, the appropriateness of the remuneration is reviewed with respect to the scope of responsibilities of each director to ensure that the Company's remuneration is comparable to that of other companies in the same industry. The proposed remuneration is then tabled at the General Meeting of Shareholders for approval. Once approved this will remain effective until a General Meeting of Shareholders determine otherwise. The approved remuneration will only be payable to Non-Executive Directors.

Remuneration for Directors who are also employees is considered on a yearly basis in line with the Company's employee remuneration policy and principles. The remuneration is aligned with the Company's objectives in order to support the delivery of the Company's business plans and strategies; and complies with the related legislative and regulatory requirement.

Executive's Remuneration

Total compensation includes salary, short-term and long-term bonus and other benefits that are competitive in the local environment. This is to ensure that senior management remuneration is appropriately positioned against external market salary information. The remuneration policy is geared towards rewarding contribution to the business and must be conscious of internal equity. Rewards should be underpinned by a thorough, involving a detailed annual performance appraisal where the achievements against targets over the prior financial reporting period.

For more information about Remuneration policy, please visit our website.

<https://www.prudential.co.th/corp/prudential-th/en/about-prudential-thailand/corporate-governance/>

3. Enterprise Risk Management: ERM and Asset Liability Management: ALM

3.1 Enterprise Risk Management: ERM

Risk Management is an essential process of the Company to protect, maintain and support the Company to maximize risk-adjusted returns and to provide a competitive rate of return that supports the profitable growth of its business, while safeguarding the Company's financial strength. Therefore, management is able to effectively manage the uncertainty according to the situation and reduce the impact and uncertainty on the Company direction, strategies, decision and operation.

The Company implements the Risk Management Policy to promote the effectiveness and efficiency of the Enterprise Risk Management, ensure a sufficient resource allocation and meet insurance obligations. It also helps promote good corporate governance and trustworthiness within the organization and industry.

The risk management process of the Company is comprised of risk identification, risk measurement and assessment, risk management and control, and risk monitoring and reporting.

3.2 Asset Liability Management: ALM

Assets and liability management is one of the key responsibilities of Asset and liability committee (ALCO), whose roles are to monitor, review, and analyze risks that could impact the Company's capital adequacy, with consideration of risk appetite, economic outlook, implicit product guarantees, policyholders' reasonable expectations and profitability to the Company.

The Company manages duration matching by setting asset duration target to be approximately in line with liability duration to manage sensitivities against future market interest rate movements and manage the investment cash flows to ensure that they will meet contractual obligations of policyholders.

For more information about Enterprise Risk Management: ERM and Asset Liability Management: ALM, please visit our website.

<https://www.prudential.co.th/corp/prudential-th/en/about-prudential-thailand/corporate-governance/>

4. Expected underwriting risks that might significantly affect to company financial position, reinsurance management, relation between capital and risk of company and concentration risk

Underwriting risks

The Company underwrites its risks based on the principal of both medical and financial health of customers. There may be other factors to be considered as part of the underwriting process based on occupation and lifestyle of the risks being underwritten. The Company would also apply risk aggregation rules where deemed appropriate. The processes of underwriting are also in line with the reinsurance arrangements of the Company.

Reinsurance management

Reinsurance management is defined as a process of retention versus ceding of risks to the reinsurer. The Company enters into reinsurance arrangements based on risk appetite and to ensure adequate capital management. Risks considered include large risks (individual and portfolio level), concentration risk and emerging health risks. The Company reviews its panel of reinsurers from time to time as well as with the creation of new customer solutions.

For more information about Risk Management, please visit our website.

<https://www.prudential.co.th/corp/prudential-th/en/about-prudential-thailand/corporate-governance/>

5. The valuation, method and assumption to assess insurance contract liabilities

Long-term technical reserves

The Company determines the long-term technical reserves based on the approved actuarial methodology.

Process involved in determining assumptions

The Company determines assumptions in relation to mortality, morbidity and pricing rates that were established at the time when insurance products designed and as approved to the Office of Insurance Commission. These assumptions are used for calculating the liabilities over the life of the contract. There are no changes in assumption from last year.

Short-term technical reserves

Short-term technical reserves consist of loss reserve, outstanding claims and premium reserves.

Process involved in determining assumptions

The Company determines the loss reserves and outstanding claims in accordance with the Company's claim assessment. The assumptions used in the estimation are intended to result in provisions which are sufficient to cover any liabilities arising from insurance contracts that can be foreseen to a reasonable extent.

However, given the uncertainty in establishing a provision for insurance claims, it is likely that the final liability could be significantly different from the original liability established.

Provision is made at the reporting date for the expected ultimate cost of settlement of all claims incurred in respect of events up to that date, whether reported or not.

The Company uses "Bornhuetter-Ferguson" method, "Chain Ladder" method and "Expected Loss Ratio" method to estimate claims incurred but not reported depending on the maturity of a particular line of business and the type of business written.

Information of Policy Liabilities Valuation as follows:

Unit: Million Baht

Description	Year 2023		Year 2022	
	Book value	Appraisal value	Book value	Appraisal value
Long-term technical reserves	136,866	125,075	126,479	116,262
Short-term technical reserves	758	658	539	509
Unpaid policy benefits	502	502	473	473
Due to insured	1,346	1,346	1,146	1,146

Remark: Book value is value of liability from insurance contract liabilities appraised according to accounting standard. The key objective is to enable investors to analyze economic value of liability from insurance contract liabilities according to accounting standards in Thailand. The said value was audited by certified public accountant.

Appraisal value is value of insurance contract liabilities assessed under the Notification of the Insurance Commission on Asset Valuation and Life Assurance Valuation. Primary purpose is for overseeing the financial security of insurance companies and to ensure that the Company is able to fully cover the Insured Person's insurance benefits according to the insurance policy. It is required assessment from actuary that qualified by the registrar according to actuarial standard. The assumption used for determining this shall be in line with actual experience or in case that the Company has no enough experience, it could be referred to the industry experience and adjust to be suit to the Company's portfolio characteristic. Moreover, reserve must include Provision of Adverse Deviation, which is prescribed by the OIC.

Notice: in some period book value and appraisal value of insurance contract liabilities may be materially different. This is due to the differences of objective and methodology that said above. By the way, the one who will use the information above should carefully study and understand the objective and methodology to calculate book value and appraisal value before making decision.

For more information about the valuation, method and assumption to assess insurance contract liabilities, please visit our website.

<https://www.prudential.co.th/corp/prudential-th/en/about-prudential-thailand/our-financial-performance/>

6. The Company's Investment

Investment Business

The company's investment objectives are to invest in a broad range of fixed income and equity securities that produces a consistent and stable rate of return in the long run and in those securities that matches with the liability characteristics, while maintaining a low risk profile. The investment philosophy marries fundamental security selection with macro views. The fund invests in government bonds and Investment Grade corporate bonds, as well as equity with strong fundamental. The low risk profile is achieved by having a well-diversified portfolio of high-quality assets in different markets and classes. Offshore securities include bonds issued by sovereigns and companies with solid profile in Asia and the US.

Investment management guideline

The Company's Investment Committee and Asset-Liability Committee approve the overall investment mandates, including Strategic Asset Allocation and investment risk framework. Eastspring Investments (Singapore) Limited is appointed as fund manager to manage the portfolio as per the investment guidelines. The Investment Committee is responsible for the oversight of the investment execution and performance to ensure they are in compliance with the mandates and regulations.

Assumption and valuation method

- **Financial Statements**

The assumption and valuation are prepared in accordance with Thai Financial Reporting Standards (TFRSs), guidelines promulgated by the Thailand Federation of Accounting Professions ("TFAC").

- Cash and cash equivalents, and policy Loans, are stated at the principal amounts less allowance for doubtful accounts which approximates the fair value.
- Debt securities are stated at the clean price on the last day of the period provided by the Thai Bond Market Association and foreign issued debt securities are based on broker and dealer quotes.
- Listed equities use quoted prices (unadjusted) published by Security Exchange.
- Equity securities that are not marketable are valued using the adjusted net asset method.
- Unit trusts use quoted prices (unadjusted) in active markets for identical assets or liabilities, or using the net asset value (NAV) on the last business day of the period provided by assets management companies.
- Promissory notes use a discounted cash flow technique, which uses contractual cash flows and a market - related discount rate.
- For simple over-the-counter derivative financial instruments are based on counterparty quotes and group rate.

- **Solvency Report**

The assumption and valuation are prepared in accordance with announcement of OIC committee: Assessment of Asset and liability of Life Assurance Company.

Unit: Million Baht

Investment assets	As at 31 December			
	Year 2023		Year 2022	
	Book value	Appraisal Value	Book value	Appraisal Value

Unit: Percentage

Description	Year 2023	Year 2022
First year underwriting expenses: Net premiums written	31.54	29.24
Renewal year underwriting expenses: Net premiums written	1.47	1.63
Return on equity ratio	3.23	1.50
Return on assets ratio		
- Return on total assets ratio	0.51	0.27
- Return on total assets excluded unit linked and universal life ratio	0.55	0.30
Return on Investment ratio		
- Return on Investment ratio	2.65	2.67
- Return on Investment excluded unit linked and universal life ratio	2.92	2.95
Ratio of invested assets to insurance reserve (Appraisal value)	117.43	111.89

Remark:

- Appraisal value refers to the assets and liabilities assessed under the Notification of the Insurance Commission on Asset Valuation and Life Assurance Valuation. Primary purpose is for overseeing the financial security of insurance companies and to ensure that the Company is able to fully cover the Insured Person's insurance benefits according to the insurance policy.
- Unit Linked Insurance is a life insurance that provides both life insurance protection and Investment in mutual funds. The policy value depends on the unit value. Assets in the Fund belong to the insured, not to the Company.
- Universal life insurance is a clearly defined policy that separate life insurance part and investment part. The return on investment depends on the Company's investment but not less than the minimum return.

8. Capital Adequacy

The Company's capital management policy is to maintain a strong capital base to meet policyholders' obligations and the requirements of the Office of Insurance Commission, to create shareholder value and deliver sustainable returns to shareholders. The Company performed its own risk and solvency assessment (ORSA) incorporating with its business plan, company key risk, and capital management, taking into account strategic risks and external factors which could negatively affect capital adequacy. Capital management is one of the key responsibilities of Asset and Liability Committee (ALCO). The Company activities to effectively monitor and test our capital sufficiency on a regular basis include but not limited to

- Testing capital adequacy in 3 years Business Plan;
- Regularly testing and forward projection of capital adequacy based on going concern basis and economic downturn; and
- The sensitivity test on any significant changes to assess the impact of key risk variables for better informed decisions.

In accordance with and the requirements of the Office of Insurance Commission, all insurers are required to maintain a minimum at least 140% of capital adequacy ratio. It is the Company's policy to hold capital levels in excess of minimum requirement. As at 31 December 2023, the capital adequacy ratio is at 357%.
